

CALIFORNIA COMMUNITY FOUNDATION

INVESTMENT POLICY STATEMENT FOR THE

CONSERVATIVE BALANCED POOL

*ADOPTED BY THE INVESTMENT COMMITTEE
MARCH 10, 2022*

The purpose of this Investment Policy Statement is to set forth the goals and objectives of the California Community Foundation (the "Foundation"), and to establish guidelines for the implementation of investment strategy for the Foundation's financial assets which are invested for intermediate-term total return and which the Committee has designated as the Conservative Balanced Pool ("the Pool"). The Pool is comprised of permanent funds and donor advised funds. The Foundation recognizes the potential for highly fluctuating withdrawal amounts from donor advised funds.

This Investment Policy Statement shall become effective upon adoption by the Investment Committee (the "Committee") of the Foundation. The Committee recognizes that a stable, well-articulated investment policy is crucial to the long-term success of the Foundation. As such, the Committee will develop and implement this Investment Policy Statement with the following goals in mind:

- To clearly and explicitly establish the objectives, policies and constraints that govern the investment of the Conservative Balanced Pool assets,
- To protect the financial health of the Foundation through the implementation of this stable long-term investment policy.

I. California Community Foundation Goals

The Foundation is a nonprofit grant making foundation benefiting a wide variety of community-based nonprofit organizations throughout greater Los Angeles County. The Committee of the Foundation views the assets held in the Pool as designed for short-term purposes. The Committee is also cognizant of the Foundation's central philanthropic purpose, which is to be consistently responsive to the current and changing human needs of greater Los Angeles County.

The Committee may choose a corporate custodian, trustee and/or investment counsel to provide services necessary to perform its obligations as set forth in the policy statement.

III. Management and Investment Objectives

The primary management and investment objectives of the Conservative Balanced Pool are to provide current income with the opportunity for modest capital appreciation in support of grant making over a three to seven year investment time horizon. In support of this objective, the Pool offers diversified exposure to investment grade fixed income with short term maturities and exposure to the broad U.S. stock market for purposes of grant making over the intermediate horizon.

IV. Portfolio Investments

The Conservative Balanced Pool will be invested per the following target allocations:

- 70% Vanguard Short Term Bond Index Fund
- 30% Vanguard Total Stock Market Index Fund

It is expected that the Pool's actual asset allocation will vary from its target asset allocation as a result of the varying periodic returns earned on its investments. The Pool will be rebalanced to its target asset allocation under the following procedures.

- Rebalancing will be conducted at least weekly to maintain the target allocation
- Upon any material (greater than \$250,000 or 10% of the Pool) contributions and distributions for grants, the Pool will be reviewed to determine if rebalancing is needed to maintain the target allocation

The Committee at its sole discretion may change the underlying investment components and/or target allocation at any time.

V. Monitoring of Objectives and Results

All objectives and policies are in effect until modified by the Committee, which will review them periodically for their continued appropriateness.

If at any time any manager believes that any policy guideline inhibits investment performance, it is the manager's responsibility to communicate this view to the Committee.

Investment managers will report the following information to the Committee quarterly:

- Total return (on time-weighted basis) in the aggregate, net of all commissions and fees including comparison to a benchmark
- Purchases and sales for the quarter
- Regular communication concerning investment strategy and outlook is expected. Additionally, managers are required to inform the Committee

promptly of any change in firm ownership or fundamental investment philosophy and of any significant change in organizational structure or professional personnel.

The Committee will periodically review the related services provided, including custody services, performance evaluation, and consulting.

VI. Social Responsibility

Consistent with achieving the applicable investment objectives set forth herein, the Foundation's investment policy will be implemented within a framework predicated on incorporating environmental, social and governance factors as components of the decision-making, engagement, proxy voting, and evaluation of the economic merits of current and potential investments. The Investment Committee acknowledges that within commingled accounts or mutual funds, it may not have the ability to direct the specific inclusion or exclusion of securities, and that ESG considerations are only one of many considerations in retaining or selecting investment strategies. However, the Committee intends to consider environmental, social, and governance issues in its decision making process.

The Committee will use best efforts to source and evaluate suitable minority, women, and Los Angeles managers.
